Austrian Airlines

Austrian Airlines is Austria's largest carrier and operates a global route network of round 130 destinations. That route network is particularly dense in Central and Eastern Europe with 39 destinations. Thanks to its favourable geographical location at the heart of Europe, the company's hub at Vienna International Airport is the ideal gateway between East and West. Austrian Airlines is part of the Lufthansa Group, Europe's largest airline group, and a member of the Star Alliance, the first global alliance of international airlines. The flight operations of the Austrian Airlines Group have been bundled at its 100% subsidiary Tyrolean Airways since 1st July, 2012.
